MB&F LM101 FROST

The latest version of MB&F's LM101 comes with a frosted dial. This technique – of highly technical metallic brushing that compresses the surface of the metal – is only practiced by a few craftsmen. The timepiece focuses on three essential elements – the time, the balance wheel, and a power reserve indicator. The LM101 'Frost' is in a limited edition of 33 pieces in red gold and 18 in yellow gold. Priced from £49,800.

OLYMPUS CHAIR

This made-to-order Olympus chair from the London upholstery studio of Aiveen Daly is hand sculpted and decorated with pink satin flutes, and pleated and silver knot details. The hardwood frame comes in dark stained oak or black in satin or gloss as standard, but a choice of other woods is available – just ask the studio. The chair is 90cm tall and price is dependent on your choices. The cushion is also made to order.

If you're the sort of person who thinks there aren't enough TVs in domestic bathrooms, Videotree's Lifestyle Pro range of waterproof HD screens is for you. There are on-wall and in-wall mounting options, and a wealth of other choices including mood-edge lighting and speaker preferences. Shown is the top-of-the-range 55in. The TV can be controlled by remote, touchscreen or a laser-etched touchpad tile. Prices from €13,900.
